02:21:01 Jackie Ambrow, Positively-HUB.com: Affirmations work for most people when:
You design an affirmation you can begin to believe.
Say and handwrite them in longhand with feeling.
Say them and write them in the last 30 minutes before sleep when you're naturally in the hypnogogic state before sleep. You're most suggestible then.
You are most suggestible to your own words, so choose them wisely!

I'm a certified hypnotherapist (16 years) and applied anthropologist (28 years).
02:21:46 Jackie Ambrow, Positively-HUB.com: Handwriting in longhand bypasses the critical mind and creates an "ideomotor response" in a loop between the conscious and subconscious mind.

I am so glad you are the beginning of my passionate project..WOMEN OF SUBSTANCE GLOBAL..My Cover page girl...It took 2 years to obtain the trademark and copyrights.

Thanks for believing in me & being there for me.

Money & You changed my life..The distinctions I got from the program helped me to hold on during my tough times.

People may copy your project but they can never copy your talent, attitude and skills.

I am so happy to be back and thriving.

Saint Mother Theresa Foundation is my MISSION..I am so glad to be doing philanthropy & social services for more than a decade now in Asia..and with you switching to Philanthropy is a call within a call.

You are an inspiration angel and I am off to GOA to celebrate you...Our Women of Substance. In this 2 hours inflight will be heartful meditation for you and all our money & U extended family.
Love & Light,
Aloha

02:52:07 Chris Mentzel: Here's the prompt:
I need to find a company name. As a top branding expert, I want you to bring in a language expert that is well-versed in all the languages of the world to make sure that the word you're

inventing works all over. And I also need to find a word that is not in any big use right now and possibly can be trademarked, and the domain is available. I also want you to bring in a marketing expert that has a feeling of how the reaction to this term is working. Please have a conversation between you, the branding expert, the marketing expert, and the language expert, and go for a few rounds in discussing and criticizing possible terms.
